CORPORATE TRAINING

Big industrial complexes and Govt. departments invest lots of funds for equipment, apparatus, physical plant improvements, service award programs and many other worthwhile expenditures. All of this is wasted, if properly trained manpower is not available. A single fire/industrial accident in any establishment can challenge the existence of the unit. IDMFS training program in Fire & Industrial Safety Management provides not only skills beyond fighting fire, but disseminate in-depth knowledge.

IDMFS is dedicated to impart training to the aspiring students to save the life, save material and property by preventing fire incidents. The offered program in Fire & Industrial Safety Management diploma program is need of the hour leading to :

- Training improves SAFETY
- Training reduces FIRE LOSSES
- Training creates ESPRIT-DE-CORPS
- Training saves LIFE AND PROPERTY
